

Welcome to the Department of Gastroenterology, Diabetology and Hepatology of the Vivantes Klinikum Neukölln in Berlin. Thank you for your interest in our division.

My team and I dedicate ourselves to providing high quality, compassionate healthcare. We would be pleased to assist you in the diagnosis and treatment of diseases of the gastrointestinal tract, pancreas, liver and bile ducts in our outpatient clinic, on the wards and in the endoscopy unit of the clinic.

We are specialised in particular in the following diseases:

- suspected or known cancer of the esophagus, stomach, small and large intestine, pancreas, liver or bile ducts
- cystic neoplasia of the pancreas
- acute or chronic hepatitis, cirrhosis of the liver, ascites, esophageal and gastric varices
- inflammatory diseases of the gastrointestinal tract: Crohn's disease, ulcerative colitis, microscopic colitis, eosinophilic oesophagitis
- gallstone disease
- acute and chronic pancreatitis
- polyps in the gastrointestinal tract
